To Whom It May Concern,

I am pleased to recommend Tilak POUDEL, who worked with us from February 2022 to December 2025 on our engagement and training platform, app.engagenow.fun.

During this period, Tilak POUDEL consistently demonstrated strong technical skills and professionalism. He played a key role in evolving the product using Laravel, PHP and mySQL, delivering reliable improvements based on project requirements and JIRA tickets.

He was able to quickly understand instructions, execute with rigor, and maintain high-quality standards in his work.

Beyond his technical capabilities, Tilak POUDEL stood out for his excellent collaboration skills. He was always attentive, open to feedback, and proactive in proposing valuable ideas to improve the platform. He also remained consistently available and responsive to changing needs and requests.

I strongly recommend Tilak POUDEL for any role requiring solid full-stack development skills, reliability, and a constructive team mindset.

Sincerely,
Richard SELTRECHT
